

Our LED Shoebox Fixtures are designed to replace Metal Halide and High Pressure Sodium shoebox lights in parking lots and other public areas. Many of our LED shoebox lighting solutions qualify for utility rebate eligibility. Shoebox lighting is an effective way to illuminate large parking areas with ease. Fixture placement, along with the right optics, can lead to a widespread scope of lighting that is powerful and effective. With our collection of LED shoe box light fixtures, find the perfect way to illuminate parking lots of any size!
